

Establish Natural Balance with Chromotherapy Lighting

Chromotherapy is the science of using colors to adjust body vibrations to frequencies that result in health and harmony. Humans need the sun's light, which is broken into seven distinct rays, to live. If there is an imbalance in these colors within our bodies, it can manifest itself in mental or physical distress. Each color possesses frequencies of a specific vibration, and each vibration is related to different physical symptoms. Chromotherapy works on various energy points to help your body re-establish its natural balance. It accomplishes this via the full spectrum of visible light, each color of which addresses a separate bodily need.

► Easy to use remote

► Fifteen color options

► Adjustable intensity

► Fade & strobe capable

COLOR	BENEFIT*
Red	Activates the circulatory and nervous systems.
Strong Pink	Acts as a cleanser, strengthening the veins & arteries.
Pink	Activates and eliminates impurities from the blood stream.
